PROFILE

Full Stack Engineer with experience building scalable web applications using React.js, Next.js, Django, and TypeScript. Contributed to high-availability e-learning platforms serving 100,000+ users, focusing on responsive frontend development, REST API integration, authentication systems, and performance-oriented architecture. Experienced in developing production-grade modules including coding platforms, role-based access systems, and real-time features. Passionate about scalable backend systems, distributed architectures, and building reliable user-centric products.

SKILLS

Programming Languages: Python, JavaScript, TypeScript

Frontend Development: React.js, Next.js, Tailwind CSS, Material UI, Redux Toolkit, TanStack Query

Backend Development: Django, Django REST Framework, Node.js, Express.js

Database & Caching: PostgreSQL, MySQL, MongoDB, Redis

Asynchronous & Event-Driven Systems: Celery, Kafka, WebSockets, Socket.io

DevOps & Tools: Docker, Git, GitHub Actions, Postman, Nginx, Linux

Architecture & Concepts: REST APIs, Authentication & Authorization, RBAC/ReBAC, Caching, Background Jobs, System Design Basics, OOP, DSA

WORK EXPERIENCE

Software Engineer, DRC Systems India Ltd 01/2025 – present | Gandhinagar, India

- Developed **frontend features** for a high-availability e-learning platform using **React and TypeScript**, delivering scalable and responsive user interfaces for 100,000+ active users.
- Built reusable UI components, integrated **REST APIs**, and contributed to **Docker**-based deployment and development workflows.
- Contributed to the development of a **Learning Experience Platform (LXP)** on Open edX, implementing advanced MFE-based course authoring and **ReBAC** for access control.
- Implemented an **in-browser code editor** by integrating **Judge0 API** and **Monaco Editor**, enabling real-time coding assessments within the platform.
- Improved code quality by resolving SonarQube issues, fixing security warnings, and following scalable frontend practices.

Full Stack web development associate, 07/2023 – 12/2024 | Ahmedabad, India
Trakky Techno Services Pvt. Ltd.

- Worked on various modules including user-based, admin-based, and POS systems, developing **responsive components** and ensuring performance consistency.
- Utilized skills in **React.js**, **Next.js**, **CSS**, and **Tailwind**; worked with component libraries like **Material UI** and packages such as **Redux Toolkit**, **Swiper**, and **Quill**.
- Collaborated with backend teams on API integration, ensuring seamless functionality and efficient data management.
- Engaged in agile development practices, delivering high-quality, SEO-friendly code.

EDUCATION

Bachelor of Technology, L.J. Institute of Engineering and Technology 09/2021 – 06/2025 | Ahmedabad, India
CGPA : 8.67

HSc, Jawahar Navodaya vidyalaya 2019 – 2021 | Bhavnagar, India
Percentage : 92.6%

PROJECTS

LXP platform 09/2025 – Present

- Actively involved in R&D on open-source tools for multi-language code compilation and forum management.
- Solely developed key project modules, including course creation-to-consumption flows, blog management with core features, and channels (content pages with dynamic grid layouts).
- Developed the most critical module, the Coding Arena, where users can run and submit code in 40+ programming languages.

BlabBurst - Chat App 📄

- Created using the **MERN** stack with **JWT** authentication for security.
- Features real-time messaging with **Socket.io** and high-quality video calls enabled by **Simple-peer**.
- Utilizes **Cloudinary** for efficient storage and management of images, enhancing the application's functionality.
